

We are looking for imagination and creativity. You can use books and the internet to help you. Please record your work on paper, word document or even a powerpoint. Highlight the stars as you complete them. Good luck and enjoy!

Create (using household items) your own space station! What features does it have to help you survive the dangers of space?

Design your own colony on the moon. What buildings and facilities would they need? Create a detailed design!

Write a poem about Space!

What can you find out? Make a Powerpoint on a subject you enjoyed learning

Out of this World!

Gather 5 key facts for every planet in our solar system! Create a small book of your findings and decorate.

Make and bake your own Space Recipe! Anything is possible! What name will you give your recipe? E.g. Edible Meteorites

Make a poster about All the facts you have learnt about Space!

Research one of the planets and create a fact file for it. Don't forget a colourful drawing too!

Use DSS to write a paragraph about stepping out of a space ship into a 'New World!'

Dress yourself and others in your family as Aliens. What are you wearing and how does it help you in the planet's environment you live in?

Create your own Alien character. Draw your character and write a DSS paragraph describing it.
